EXPERIENCE

Tennr

Agentic AI Developer, Integrations

Mar 2026 – Present

Gurugram, India (Hybrid)

- Build agentic AI workflows on Tennr's platform and in-house LLM (RaeLM) that automate patient intake, sales orders, qualification, and eligibility and insurance verification for healthcare providers.
- Integrate external healthcare systems via REST-based Partner APIs (PAPIs) to enable Workflows as Code (WAC).
- Integrated Claude via Model Context Protocol (MCP) so workflows can be implemented, tested, and deployed as code.

Hughes Communications

System Engineer

Nov 2025 – Mar 2026

Gurugram, India

- Built a real-time telemetry and monitoring service for SD-WAN devices using Telegraf, nDPI, and Grafana, improving visibility, reliability, and issue detection across large-scale networks.
- Developed Python and Django backend services for logging, monitoring, authentication, and device APIs.
- Designed hardware-bound AES authentication for client devices, deployed via Docker and Kubernetes.

Trianz

Software Development Engineer I

Bengaluru, India

Aug 2023 – Dec 2024

- Automated deployment tasks with Python and AWS Lambda, improving deployment efficiency by 30%.
- Developed a Flask-based CMDB ETL module and expanded its test coverage with Pytest unit tests.
- Automated AWS-to-AWS migrations with Ansible playbooks; maintained CI/CD pipelines with shell scripts and Git.

SDE Intern

Feb 2023 – Jun 2023

- Automated backend and infrastructure setup with Ansible and Bash on AWS via the Trianz Cloud platform.

Amazon

Software Development Engineer Intern

May 2022 – Jul 2022

Bengaluru, India

- Built Python REST APIs on AWS Lambda for an internal Retail Tech service, improving payload handling efficiency by 20%.
- Implemented data storage and query workflows on DynamoDB and S3 to support scalable data access.

PROJECTS

ShopSphere (E-Commerce Web App) | Python, Django, SQLite, Pillow

- Built a full-stack e-commerce application with product catalog, cart, checkout, authentication, order tracking, and reviews.

EditPro (Image Editor) | Python, Tkinter, MySQL, Pillow

- Built a desktop image editor (crop, rotate, brightness, contrast) with MySQL-backed preferences and history.
